² Column G: The "#" is obtained by adding the unduplicated totals from columns D and E; the "%" is obtained by dividing "#" by the total surveys "Rec" minus those NAFW. The formula is (D + E)/(Rec - NAFW)=Total G.

Overall Average Salary	\$30,130
-------------------------------	-----------------

Additional items to report:

Number and percent of total employed graduates (column D) who are working in Maine:

#	%
173	96.6%
